What makes us different

Quality-driven process

Our 5-phase process ensures your project flows smoothly and efficently. We employ quality control checklists throughout the process and communicate with you on a regular basis about the on-going status of your project.
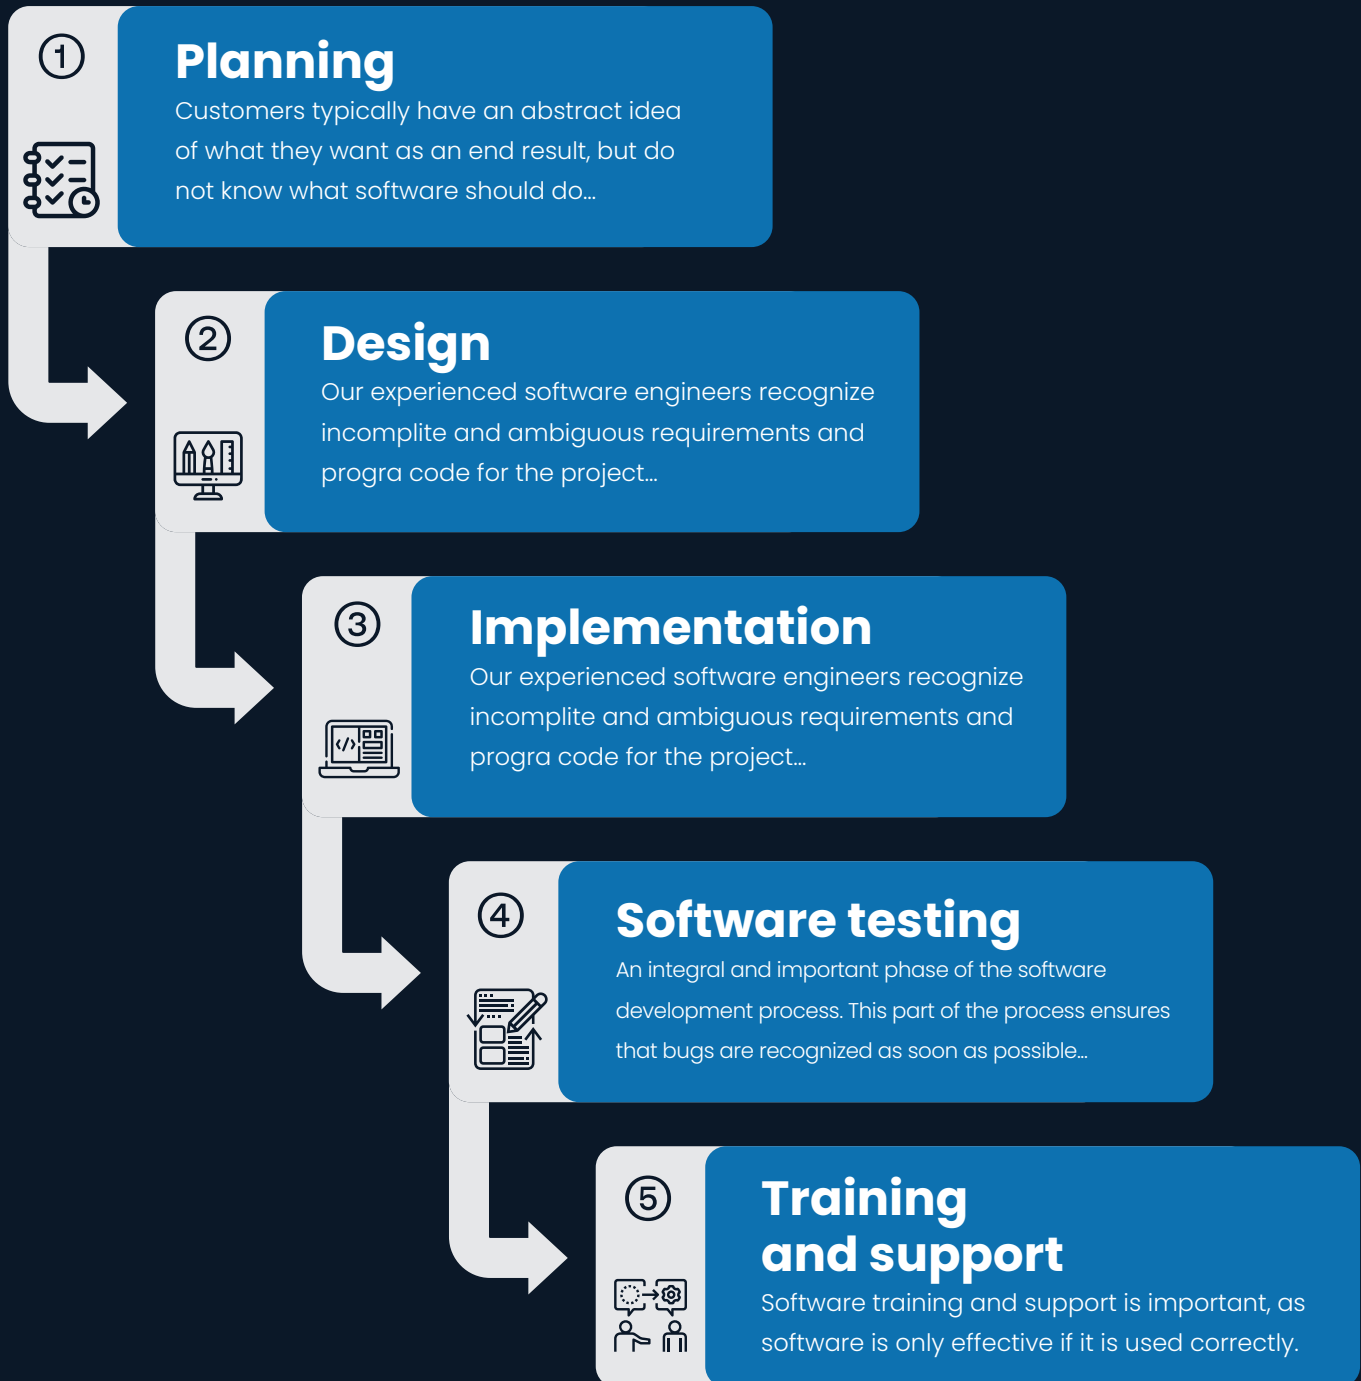

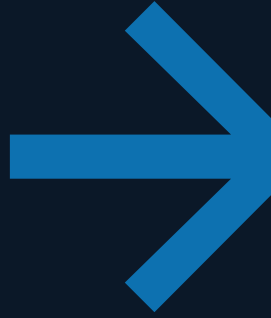

Talented designers & expert developers

Our designers and developers are very talented. They each have years of experience creating IT solutions that are visually appealing, clean and well documented.

We are dedicated to our clients

We love what we do and are passionate about helping our clients be successful. We would welcome the opportunity to help you take your business to the next level.

Our process

① Planning
Customers typically have an abstract idea of what they want as an end result, but do not know what software should do...

② Design
Our experienced software engineers recognize incomplite and ambiguous requirements and progra code for the project...

③ Implementation
Our experienced software engineers recognize incomplite and ambiguous requirements and progra code for the project...

④ Software testing
An integral and important phase of the software development process. This part of the process ensures that bugs are recognized as soon as possible...

⑤ Training and support
Software training and support is important, as software is only effective if it is used correctly.
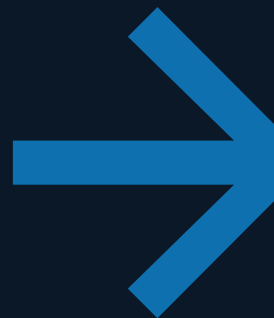

Mission
Statement

" To help grow the business of our customers with creative design and development by providing high-quality solutions and reliable competitive advantage. "

Vision
Statement

" To become a leading
performer in this competitive
global marketplace "

What our clients say about us...

★ ★ ★ ★ ★

It is rare to find a vendor like GISDEV who go beyond the effective delivery of projects to become a consistently responsive and trusted collaborator. We have launched at least 5 projects with the GISDEV team, all of them successful and extremely professional.

Kim Pearce
Technical Director - Continuum Works

★ ★ ★ ★ ★

GISDEV's team did an excellent job. They solved some time consuming tasks for my team on our educational platform and they provided custom web solutions to improve UX and security of our LMS. Highly recommend, even on short dedlines.

Andrea Cristofoletto
Chief Operating Officer - Cannabiscienza

★ ★ ★ ★ ★

GISDEV company supporte us from the scratch with the implementation of our webpage. They are extremely reliable and work quickly. Great team - highly recommended!
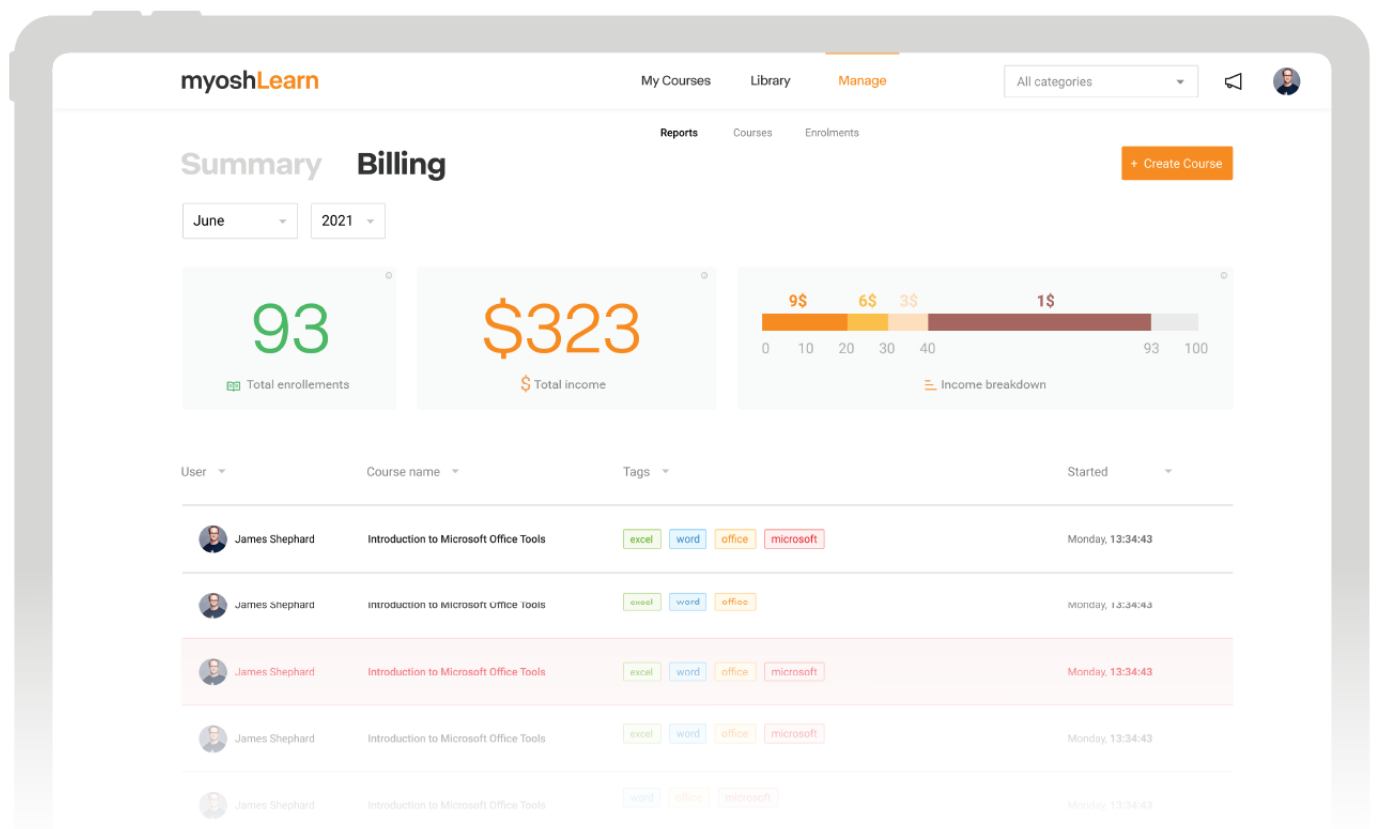

Ines Michel
Sales Support Professional Asia - SKIDATA AG

Online Learning Platform

## Full end-to-end Online Learning Management (LMS) platform

myoshLearn is an online Learning Management System (LMS) that enables corporate businesses to easily create, share, complete and track online courses and workplace inductions.

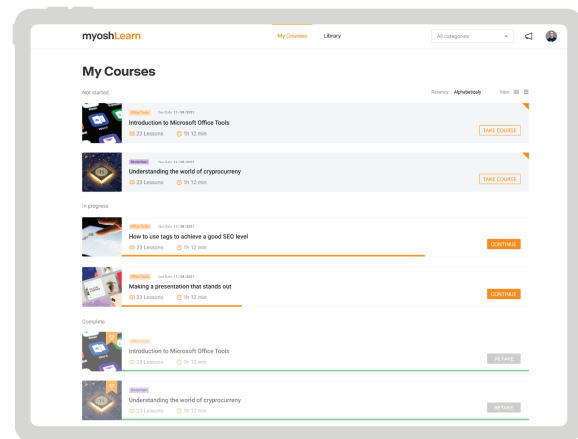

A fully responsive layout ensured that Online Learning could be delivered portably on tablets and mobile devices. SSO was implemented to ensure a seamless login.
